

Practice Application

1. Create a folder named **DP** and your **Last name** to hold all the completed files for this activity.
Create 2 folders within this folder named **Practice** and **Application** respectively. Add an **Extension** folder to the **DP** and your **Last name** folder if you plan on submitting extensions with this module.
If you submit an extension at a later time, create a new **DP** and your **Last name** folder **plus** add an **-E**. Add an **IndependentE** folder to hold all files for the extension within the new **DP** and your **LastnameE** folder.
2. Participate in the in-class review of the activities, **Experimenting with Objects** and **Experimenting with Images**. Save each file in the **Practice** folder, if desired.
3. Complete the following activities for practice:
 - ◇ Setup Templates in Draw and Paint
 - ◇ Editing Your Picture
 - ◇ Inspiration Activity - Web
4. Complete the following lesson activities for practice :
 - ◇ Read the Venn diagram lesson plans
 - ◇ Create a “drag and drop” Venn diagram lesson.
5. Complete the **Tutorial Inspiration Project: Zoo Field Trip Web** to learn how to create a visual learning web.
